

Dear All,

Warm Greetings from SVSU!

Based on the queries from the participating consultants, for the purpose of clarity on the scope of work please refer below:

*The scope of work to be addressed by International Advisory consultant is based on the following premise:*

- 1. To establish SVSU as a premier global MSTI/TVET SU and employ best practices.*
- 2. All key interventions shall holistically integrate Infrastructure, labs, Technology, Information Technologies, Academic excellence, Financial prudence, Industry interface, Student/talent mobilization; engagement and program portfolio relevance.*
- 3. Effective pedagogy and seamless actionable, performance managements system (PMS) and Management Information System (MIS).*
- 4. Accreditations and rankings compliant systems and practices.*

Further, the summary of scope of work as below is to be read with the main document.

**Summary of Expected Deliverables:**

1. Create, align and implement a holistic future ready Strategic Vision & action plan for university incorporating best(global) replicable practices. Implementation plan with SOP's, processes and effective monitoring /evaluation tools for Phase I milestone (4 Years) and strategy plan for remaining two phases.
2. Configuring Industry ready, efficient, scalable, fully compliant Academic infrastructure, labs, workshops & facilities aligned with the academic plan to create high impact sectoral programs and meet the objective & vision for the proposed (4) Faculties of the University including 11 emerging areas identified by University for first phase.
3. Develop and implement SOP's for high impact Academic framework, processes and structure for measurable qualitative and quantitative Academic excellence, innovation, vertical mobility, living laboratory & industry engagement including student selection, teaching pedagogy, ToT, and assessment of skill competency acquired during the course; using latest technology, IT platforms & industry responsive content including MOOC.
4. Designing and aligning Performance management system(PMS) for evaluating academic, student and faculty performance, and SOPs for building, nurturing, retaining, monitoring, evaluating and attracting contemporary and competitive human capital / human resource to meet and exceed academic excellence and cater to needs of stakeholders.

5. Effective Branding strategy with Clear and high impact multichannel brand outreach directed to all relevant audiences to successfully position the University nationally and Internationally.
6. Setting up/ employing tool based, practice oriented LMS, designing integrated IT platforms, quality parameters, processes and monitoring methodology for assured academic and administrative delivery; leading to centers of excellence and to steer towards visible & effective rankings and accreditations.
7. Design and develop meaningful Industry engagement strategy for the purpose of On the Job training, Industrial R&D, consulting and post training placement of students and including international linkages.
8. Internationalization strategy to facilitate meaningful international collaborations, promote cross-cultural relations, student and faculty exchanges, common programs and joint research.

**We, therefore, invite you to next round of pre bid meeting on 7<sup>th</sup> February,2019 at 1500 hrs IST.**

Further, we would like to inform that based on feedback, the **last date of submission of proposal is extended to 18<sup>th</sup> February,2018.**

SVSU takes this opportunity to reiterate that we value your participation and look forward to take this consulting assignment forward.

Thanking with regards.

Dr Raj S Antil

Joint Director (Q & S)
